

# 1. LST “CAROUSEL” DESCRIPTION

## 1.1. Technical features

**HINTA 9.600 € ALV 0%**

This technical innovation helps teaching the kids to ski with a lot of fun and adventure. It's an easy way to learn balancing, gliding, sliding and turning round and round on skis.

### Technical data:

- The arms of the carousel can be open up
- **Folding arms for easy grooming**
- Electronic cabinet with security switch
- CE certified
- Generous and easy height adjustment
- **Can be easily assembled and dismantled**
- **Left- and right-handed**
- **Weight 420kg**
- **Variable speed**; because of the adjustable speed, the kids learn to control the speed
- It's a funny and safety experience for kids to take the first steps on their skis
- Pulling on the carousel teaches to use the lift. So the first pre-knowledge for lift driving can be collected
- The danger of injury is very low, because kids practise without ski sticks
- Power saving and playful practising
